This two-day expo showcases the plant biodiversity of Santa Clara, San Mateo and surrounding counties. The region's premier botanical/horticultural event features over 400 species of wildflowers and native plants.

Free classes on native plant identification, growing wildflowers, gardening with native plants, and fun children's activities.

Books, plants (limited supply), note cards, and various wildflower related items on sale.

For more information on the show and how to join CNPS,
